EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas H. Goldhush on 11/21/2005.

The application has been amended as follows:

In claim 3:

Line 2, the recitation "further comprises selecting the at least one time domain" has been deleted.

In claim 12:

A period "." has been inserted at the end of the claim.

2. The following is an examiner's statement of reasons for allowance: Gupta (US 2003/0179831 A1) discloses compensating for non-linearities for a power amplifier 210 of a transmission chain, wherein distortions are compensated in both time and frequency domains (see paragraphs [0037] and [0049]). Gupta, however, fails to disclose or render obvious the steps of third forming, modifying, fourth forming, first adapting and second adapting as specified in claim 1. None of other prior art of record cures the above deficiencies in Gupta.

Regarding independent claims 2, 11-12, 20-23, they are allowed for similar reasons as set forth in claim 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T. Vo whose telephone number is (571) 272-7901. The examiner can normally be reached on Monday-Friday.
